Objective

I am aspiring to start a new career path in the computer industry. The field of DevOps particularly interests me. Ideally I would like to be in a position that encourages the acquiring and learning of new skills while utilizing existing ones.

Skills

Comptia A+ certified
Currently studying Python, JavaScript, JQuery
Experience with React.js
SQL Databases
Node.js / Firebase cloud functions

Experience

USIC 2007-present
Lead Technician/ Damage Investigator- Working independently under a wide range of circumstances while being very efficient and adhering to all applicable safety standards. Trained new employees, most of which went on to have successful careers. Managed others on large-scale projects. Personally handled damage investigations that could be worth many tens of thousands of dollars as well as the following depositions when necessary.

Education

Park Hill/Home Schooled
Home schooled education that focused on mathematics, literature, vocational and financial skills.
Launch Code 2017/2018 class, Python and JavaScript path.
